

## **Official Statement from Barito Renewables To Clarify False Message Circulating on the Ijen Geothermal Project**

**Jakarta, April 22, 2024** – Barito Renewables management is aware of a message circulating under the title “Indonesia’s BREN Uncovers Major Gold Reserve in Ijen Geothermal Project”, which falsely claims to be authored by Mr. Prajogo Pangestu, Chairman of Barito Pacific Group.

Barito Renewables wishes to formally and unequivocally clarify that the message did not originate from Mr. Prajogo Pangestu, nor from any official or authorized representative of Barito Renewables and subsidiaries.

We urge the public and market participants to exercise caution amid a growing number of attempts to impersonate representatives of Barito Renewables or misrepresent information related to our operations.

If you encounter any questionable or unofficial communication claiming to represent Barito Renewables or its affiliates, we encourage you to verify its authenticity by contacting us directly at: [corpsec@baritorennewables.co.id](mailto:corpsec@baritorennewables.co.id)

Barito Renewables remains committed to transparency and integrity in all our disclosures and will continue to monitor and take appropriate action against the deliberate spread of misinformation.

### **About Barito Renewables:**

Barito Renewables (IDX: BREN) is a leading renewable energy company in Indonesia and the renewable energy unit of Barito Pacific Group, committed to providing clean and sustainable energy solutions. With a strong focus on environmental responsibility and community engagement in its operational areas, BREN plays a crucial role in Indonesia's transition to a greener and more sustainable energy landscape. BREN's subsidiary, Star Energy Geothermal, currently operates geothermal power plants with a total capacity of 886 MW. Through Barito Wind, the company also owns the Sidrap wind power plant in South Sulawesi with a capacity of 75 MW. Visit the company’s website at: <https://baritorennewables.co.id>.
